

## **Severe Acute Respiratory Syndrome (SARS) February 2006**

1: Haemophilia. 2006 Mar;12 Suppl 1:3-7.

Emerging viral diseases and infectious disease risks.

Tapper ML.

PMID: 16445811 [PubMed - in process]

2: J Microbiol Immunol Infect. 2006 Feb;39(1):45-53.

Clinical and laboratory features in the early stage of severe acute respiratory syndrome.

Fan CK, Yieh KM, Peng MY, Lin JC, Wang NC, Chang FY.

PMID: 16440123 [PubMed - in process]

3: J Formos Med Assoc. 2006 Jan;105(1):31-7.

Declining Emergency Department Visits and Costs During the Severe Acute Respiratory Syndrome (SARS) Outbreak.

Huang HH, Yen DH, Kao WF, Wang LM, Huang CI, Lee CH.

PMID: 16440068 [PubMed - in process]

4: Methods Inf Med. 2005;44(5):603-8.

Containing acute disease outbreak.

Prince A, Chen X, Lun KC.

PMID: 16400367 [PubMed - indexed for MEDLINE]

5: Glass K, Becker N, Clements M.

Predicting case numbers during infectious disease outbreaks when some cases are undiagnosed.

Stat Med. 2006 Feb 14; [Epub ahead of print]

PMID: 16479555 [PubMed - as supplied by publisher]

6: Glass K, Becker NG.

Evaluation of measures to reduce international spread of SARS.

Epidemiol Infect. 2006 Feb 14;:1-10 [Epub ahead of print]

PMID: 16476169 [PubMed - as supplied by publisher]

7: Ho HT, Chang MS, Wei TY, Hsieh WS, Hung CC, Yang HM, Lu YT.

Colonization of severe acute respiratory syndrome-associated coronavirus among health-care workers screened by nasopharyngeal swab.

Chest. 2006 Jan;129(1):95-101.

PMID: 16424418 [PubMed - indexed for MEDLINE]
